# Enhance your Operational Risk, Compliance & Safety with QUOODA® Mobile Enterprise Platform

A ready and efficient business enables its employees to work on the move managing their operational risk, compliance and safety anywhere, at any time.

QUOODA® new game changing Mobile Enterprise Platform enables just this.

Being ready means equipping your workforce to do more on the move and remotely, ensuring they can manage your organisations operational risk, compliance and safety programmes as easily, efficiently and safely as possible.
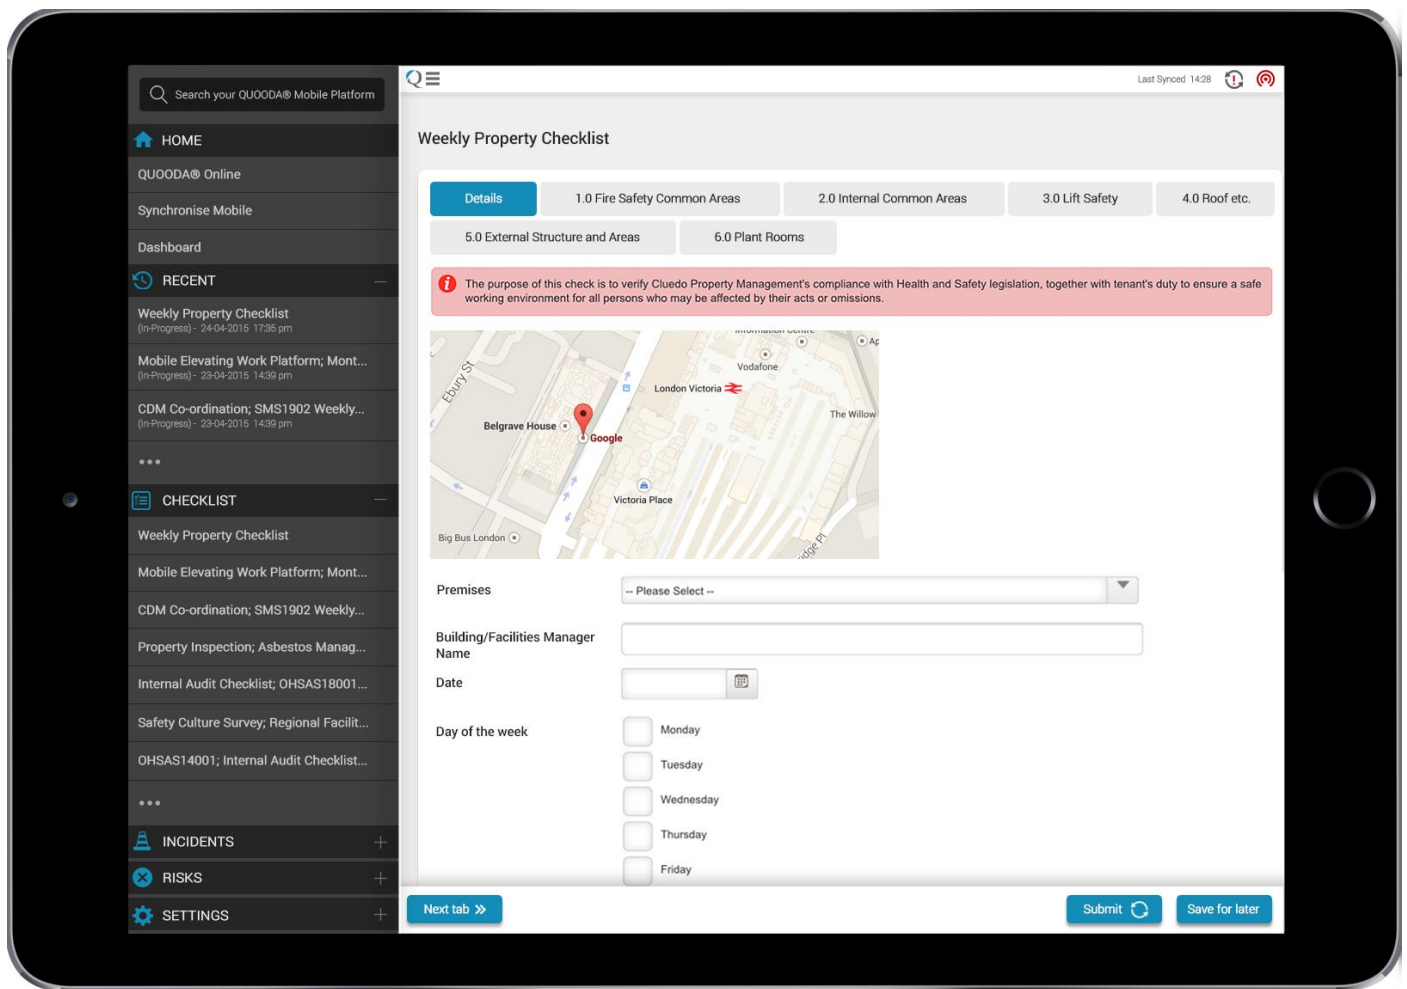

QUOODA® has pioneered an end-to-end Mobile Enterprise Platform (not just an app) that delivers agile, highly customisable and secure operational risk, compliance and safety solutions on the move, tailored to meet the exact needs of your people, management systems – and your business.

QUOODA® will also help you to provide your employees with modules and tools that are ideal to help them in their role.

Our Mobile Enterprise Platform solution will free your staff from inflexible processes that tie them to the office – enabling them to spend more time delivering value. You'll also be able to distribute your latest plans, checklists and procedures to your employees' in real time – keeping them safe while they're out doing their jobs with QUOODA® dynamic real-time updates.

SOME OF THE FACTS….	**58%** of businesses report productivity gains as a result of flexible working.	**40%** of business managers want to change their workplace models to be more collaborative and efficient.	**81%** of managers cite operational efficiencies as their top strategic priority.
Workers waste over **5 hours per week** due to lack of streamlined efficiencies, time, and travel.	**87%** of workers say they would work flexibly if given the option but only **51%** believe they have the right tools.	Over **25%** of companies believe internal communication problems are a barrier to improving productivity.	**53%** say that travel time is a barrier to productivity as they cannot work without Internet access.
49% of managers' report an improvement of communication, collaboration and ability to make better decisions, faster using one single platform for all their management information.	**79%** of businesses report increased productivity when being able to provide their employees with consistent, updated and secure access to information.	**83%** of managers' report that to stay productive workers need to be productive on the move, with employees being able to reach the most updated information they need – anywhere, anytime.

QUOODA®

Mobile Enterprise Platform – Weekly Property Checklist (created by the user in 10 minutes with QUOODA® innovative non-code configuration)

Providing expert professional services consultancy, solution design, non-code configuration and on-going support, we can help you:

- Create new ways of improved working and data gathering
- Create the basis for 360 situational awareness and reporting
- Enhance productivity on the move
- Ensure your company data is distributed, up-to-date and secure on the move
- Reduce errors through removing double entry
- Increase efficiency through doing a whole lot more easily on the move
- Stay connected to your system on-line or off-line
- Provide responsiveness and support on site or on the move whenever it's needed

Keep things simple for your organisation – you'll only have to input data once anytime, anywhere. Now checks, investigations, monitoring, surveys, assessments, safe systems and much more could not be easier cheaper and more effective.
